I would highly recommend Mike. Prior to my arrival in town, Mike drove around and looked at targeted potential houses and provided me with insightful comments on the neighborhoods, surrounding areas, street traffic, etc. As my time was limited this helped expedite my search. **Mike was very accommodating and pretty much cleared his schedule the three days I was available.** He also provided a list of other potential houses that I had not targeted to look at. Interestingly enough I ended buying one of these. Not being from the area, Mike also provided me with contact information for various area service providers. Overall a very nice house buying experience.

We could not have asked for a better agent! Angelina went above and beyond our expectations. We are a military family and we came for a 5 day visit and buy a house. **She listened to our needs and made suggestions that fit our family.** Dealing with a limited time line is stressful and she made the process as easy as it could be. I appreciate her honesty and knowledge of the area. She also took time to make sure we were transitioning to the area and to our new house! Thank you for all the time you invested in our family and we look forward to listing our house with you in the future! Highly recommend Angelina!
